Federal Survey

IMPACT AID

Why is this important?

Completed survey cards allow the State of Hawaii to submit an application for a partial reimbursement for the costs to educate federally connected children. Impact Aid is added to the State of Hawaii general fund appropriations to support all public school students.

September 7th

Hawaii's public schools will send home a U.S. Department of Education Federal Survey Form for parents to complete and return with your child to school.

Please return to school (1 per student) on September 8th (collection ongoing)

Why do I have to fill it out when I'm not federally connected?

The information on the completed form helps determine if a parent/guardian resides or works on federal property. The survey is disseminated annually to about 170,000 students statewide, across all islands, and schools. The goal is a 100% return rate. Your support in the completion of the Survey form is appreciated by schools in an effort to meet their goal.

✓ In the 2021-22 school year, Hawai'i public schools benefited from more than \$39.99 million in federal Impact Aid, thanks to more than 22,100 families who filled out their Survey form.

Building the capacity of staff and families to engage in partnerships;

Aligning with school achievement goals and connecting families to the teaching and learning goals for the students;

Taking a comprehensive and coordinated approach to family school engagement and community partnerships;

Addressing family school engagement/partnership in strategic planning processes;

Assigning formal responsibility, accountability and necessary authority for engagement/partnership implementation to appropriate staff at the State, Complex Area and School levels;

Embracing the diverse cultures, languages, strengths and needs of all families;

metrics/indicators, timelines and reporting requirements that support the implementation, monitoring and evaluation of family and community engagement/partnerships based upon national evidence-based best practices including, but not limited to:

Standard 1: Welcoming all families into the school community—Families are active participants in the life of the school and feel welcomed, valued, and connected to each other, to school staff, and to what students are learning and doing in class.

Standard 2: Communicating effectively—Families and school staff engage in regular two-way, meaningful communication about student learning.

Standard 3: Supporting student success—Families and school staff continuously partner to support students' learning and healthy development both at home and at school, and have regular opportunities to strengthen their knowledge and skills to do so effectively.

Standard 4: Speaking up for every child—Families are empowered to be advocates for their own and other children, to ensure that students are treated fairly and have access to learning opportunities that will support their success.

Standard 5: Sharing power—Families and school staff are equal partners in decisions that affect children and families and together inform, influence, and create policies, practices, and programs.

Standard 6: Engaging/partnering with community—Families and school staff engage/partner with community members to connect students, families, and staff to expanded learning opportunities, community services, and civic participation.

Rationale: The Board of Education ("Board") recognizes that a child's growth and educational success are responsibilities and goals shared by the Department of Education ("Department"), communities, schools and families. It follows that achievement of these goals depends on the establishment of a broad array of informed partnerships among stakeholders that address the strengths and needs of all students.
