

Purpose

Our intent is to provide students with a hands-on approach to education, while engaging their minds in environmentally and culturally significant learning opportunities.

Students will participate in 4 academic classes enriched by their hands-on experiences on school Ag-Land. This will culminate in a Summer Bridge Aloha 'Aina Project. Students will earn 1/2 an elective credit for participating and will gain a sense of place as new students here at Kea'au High School.

This organization does not tolerate any form of discrimination, harassment, or bullying because of a student's race, color, national origin, disability, sex, age, gender identity and expression, socio-economic status, physical appearance, sexual orientation, and or religion.
